## Introduction

The "Quarterly CalWORKs Report", has been developed as an information tool to monitor the progress of the CalWORKs Program and provide periodic snapshots of the data for some key program components. This is the third quarterly report for State Fiscal Year 2003/04 and covers **January through March 2004**.

Effective October 1, 1999, the State of California Department of Social Services split the existing CalWORKs program into two segments, the "Separate State Program" for two-parent families and the "Federal Program" for single-parent and child-only segments. The "Separate State Program" was established to allow the State and counties to implement creative strategies and service delivery models to ensure these families are appropriately served by the CalWORKs program. All other families are served under the "Federal Program". This report includes data for both program segments.
